

Algorithm: While loop with If/Else condition

Result: Write here the result

Input : Write here the input

Output: Write here the output

```
1 while While condition do
2     instructions
3     if condition then
4         instructions1
5         instructions2
6     else
7         instructions3
8     end
9 end
```
